

POLYMER TRADING | IMPORT | EXPORT

Connecting Polymers. Powering Industries.

POLYMER GRANULES

Polymer granules for packaging and manufacturing

Arjun PolyTrade is a Navi Mumbai based proprietorship focused on sourcing and trading polymer granules for manufacturers, processors and trade buyers. We connect material requirements with domestic and international sourcing options.

HDPE / HM LDPE LLDPE PP / PPCP MASTERBATCH

Domestic sourcing and import enquiries

For manufacturers, processors, distributors and trade buyers

Discuss your next material requirement

Polymer range

Share your application or preferred grade. We can discuss material options against your processing requirements, quantity and delivery location.

MATERIAL	APPLICATION FOCUS
HDPE / HM High density polyethylene	Film, carry bags and liners; HM film grades for suitable blown-film applications.
LDPE Low density polyethylene	Transparent packaging film, liners and blends where softness, clarity and sealing matter.
LLDPE Linear low density polyethylene	Flexible packaging film, liners and blends requiring toughness and puncture resistance.
PP / PPCP Polypropylene and copolymer grades	Moulded containers, crates and components; selection depends on rigidity and impact needs.
MASTERBATCH Colour and additive concentrates	White, blue and other colour requirements, matched to the base polymer and application.
RECYCLED Reprocessed polymer granules	Enquiries for suitable applications, subject to lot specifications, availability and trial approval.

Grade availability and application suitability are assessed for each enquiry. Share a technical data sheet or bag photograph if you already use a specific grade.

Sourcing and order support

Start with the production requirement. Confirm the material and commercial details before moving to supply.

01 Define the requirement

Tell us the finished product, process, preferred grade, quantity and delivery location.

02 Review sourcing options

Compare available material, grade identity, origin, specifications and the commercial basis.

03 Confirm the order

Agree the selected grade, packing, price, payment terms and delivery schedule. Arrange trials where needed and available.

04 Coordinate dispatch

Confirm order documentation and dispatch arrangements against the agreed supply terms.

Support for your procurement

Domestic and international sourcing

Discuss locally available material and import options against the requirement.

Trial and bulk enquiries

Discuss trial quantities before scaling to production, subject to supplier terms.

Technical document requests

Request supplier technical data, safety information and batch certificates where applicable and available.

Commercial coordination

Clarify grade, origin, packing, quotation basis and delivery expectations before order confirmation.

Request a quotation

Send your requirement by WhatsApp or email.

Scan to WhatsApp

Include these details in your enquiry

- 01 Polymer family and preferred grade or current bag photo
- 02 Finished product, process and technical requirements
- 03 Trial quantity and expected monthly requirement
- 04 Delivery location and required delivery date
- 05 Preferred material status and commercial terms

For manufacturers and overseas suppliers

Share your available grades, technical data, material status, country of origin, packing, minimum order quantity, lead time and payment terms. Include the quotation basis and offer validity.

Availability, pricing, order quantities and delivery timelines are confirmed for each enquiry. Final grade selection and end-use suitability depend on technical review and buyer trials.
